Dear Mr. Warner:

I refer to your letters of March 8, 1956, addressed to the Department of State and the Central Intelligence Agency, wherein you request information regarding the availability of certain transcripts of broadcasts emanating from North Korean or Communist Chinese stations for use in connection with a Department of Army Field Board proceeding.

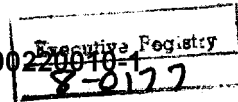

In the interest of orderly procedure, information such as you seek would channel through the particular military service concerned. I suggest, therefore, that you direct your request to the Department of the Army, through the President, Field Board of Inquiry, giving your client's name, the information desired, and the dates involved. That Office would be in a position to call on the other departments and agencies for any material that might be pertinent to the hearing.

Sincerely yours,

S/

Honorable Allen Dulles, Director

Dear Sir:

I represent a client who will shortly appear before a Field Board convened by the Department of the Army for the purpose of determining his suitability for retention in the military establishment under its regulations pertaining to loyalty and security risks. The allegations made against our client stem from an investigation of his conduct while a prisoner of war in North Korea from February 12, 1951 to August 8, 1953.

I would like at this time to examine the transcripts of all broadcasts originating in the above period from North Korean or Communist Chinese stations and intercepted by our Government, to determine whether our client was ever reported to be the signer or circulator of "peace petitions" or was reported by the enemy to have in any other way served their cause.

Will you kindly advise me how the foregoing transcripts may be made available to me?

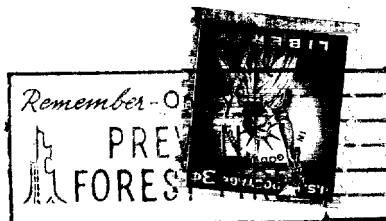

Time is of great importance in this matter, and your early attention to this letter will be appreciated.

Yours very truly,

MILES WARNER
